

A screenshot of a terminal window titled "Terminal". The window has a blue title bar with standard window controls (up arrow, minimize, maximize, close). Below the title bar is a menu bar with the following items: "Archivo", "Editar", "Ver", "Terminal", "Pestañas", and "Ayuda". The terminal area has a black background with white text. The prompt is "dmriosq@ltsp28:~/ProgFortran/ProgramacionF/Producto3\$". The first command entered is "./subrutina", which produces the output "The answers are: 1.4794255386042030 2.1886999242743364". The second line shows the prompt again with a green cursor, indicating the command has been executed and the user is ready for the next input.

```
dmriosq@ltsp28:~/ProgFortran/ProgramacionF/Producto3$ ./subrutina
The answers are: 1.4794255386042030 2.1886999242743364
dmriosq@ltsp28:~/ProgFortran/ProgramacionF/Producto3$
```
